Warm greetings to everyone.

It is with great pleasure that the Malaysian Society of Intensive Care invites you to join us in this year’s Annual Scientific Meeting on Intensive Care (ASMIC) 2018. The field of intensive and critical care is still considered one of the newer subspecialties. However, new research and knowledge in this area continues to increase rapidly each year. As we mature as an important discipline caring for the sickest patients in our hospitals, it is important to be able to utilise new evidence of care and practice at expected standards. The scientific programme for ASMIC 2018 has been planned to provide the most relevant topics and practice updates in this area and will be delivered by both renowned international and local speakers.

We are also very pleased to be continuing with a separate track for health care professionals who look after the critically ill child in both the paediatric as well as adult intensive care facilities.

We hope you will join us at this meeting and we look forward to welcoming you to ASMIC 2018.

Associate Professor Dr Tang Swee Fong
Organising Chairperson
Annual Scientific Meeting on Intensive Care 2018
1. Critical Care Nutrition

This workshop is designed from the most recent available evidence and consensus guidelines. It is intended for all healthcare providers involved in nutrition therapy of the critically ill - primarily, physicians (specialists and trainees), nurses, dietitians and pharmacists.

At the end of this workshop participants are expected to be familiar with enteral and parenteral feeding practices that are evidence-based and promote optimum and efficient energy and protein delivery. By bringing these skills back to the intensive care bedsides, it is hoped that nutrition delivery for the various groups of critically ill patients will be improved leading to better outcomes.

WORKSHOP INSTRUCTORS
Ahmad Shaltut Othman
Mohd Basri Mat Nor
Noor Airini Ibrahim
Shanti Rudra Deva

0800 - 0830    Registration and pre test
0830 - 0835    Introduction
0835 - 0855    Nutritional status assessment
0855 - 0915    Initiating and dosing EN
0915 - 0935    Monitoring tolerance and adequacy of EN
0935 - 0955    Choosing the appropriate enteral formulation
0955 - 1010    Adjunctive therapy
1010 - 1025    Tea
1025 - 1045    When to use PN
1045 - 1105    Maximizing the efficacy of PN

1105 - 1125    Special Situations 1
               Pulmonary failure
               Hepatic failure

2. Basic Paediatric Point Of Care Ultrasound

OBJECTIVES
- To equip participants with the basic knowledge and skills of point-of-care ultrasound
- To demonstrate how point-of-care ultrasound can assist in the management of the critically ill child

0700 - 0745  Registration
0745 - 0800  Introduction
Maznisah Mahmood
0800 - 0820  Knobology, physics and artefact for ultrasound
Yap Hsiao Ling

**Gastrointestinal**

**Chairpersons:** Shanthi Ratnam, Amelia Mohamed Ain

- Open abdomen management in 2018
  - *Jan De Waele*

- Gut dysfunction in critical illness
  - *Marianne Chapman*

- The challenge of ischaemic bowel - What you need to know
  - *April Camilla Roslani*

- Pancreatitis - It's all about the timing
  - *Jan De Waele*

#### SYMPOSIUM 8

**Neurology**

**Chairperson:** Nabla Irtiza Ismail

- Just how important is sleep in ICU
  - *Azmin Huda Abdul Rahim*

- Ketones as a neuroprotective agent
  - *Bala Venkatesh*

- Sedation in the acute brain injured patient
  - *Premela Naidu Sitaram*

- Pain free comfort in ICU - More than just drugs
  - *Sheila Nainan Myatra*

#### SYMPOSIUM 9

**Paediatric Symposium - Ventilation**

**Chairperson:** Tang Swee Fong

- The role of ultrasound in lung recruitment
  - *Chor Yek Kee*

- Is there still a role for HFOV in pARDS?
  - *Ira M Cheifetz*

- pARDS - When should I try HFNC / NIV first or should I?
  - *Gan Chin Seng*

- Do I need to have ECMO for management of pARDS?
  - *Ira M Cheifetz*

#### PLENARY 2

**Chairperson:** Tang Swee Fong

- Human thought or computer algorithm in paediatric mechanical ventilation
  - *Ira M Cheifetz*

#### PLENARY 3

**Chairperson:** Tang Swee Fong

- Steroids in sepsis: Is the debate finally over?
  - *Bala Venkatesh*
